Yes. It was attached. We don't want to comment, but couldn't we confirm that it was their study?

Can we confirm the pima county study was what we based our letter on?

Margot,

Pima County Administrator Chuck Huckelberry put out a memo today on your letter, and in it, he said that EPA's conclusions on the mine's impacts on groundwater flow are based on a study that was conducted for the county by Thomas Myers, a Nevada-based water consultant.

I'm not asking you to elaborate in any way on your letter—just to tell me if Huckelberry's memo is accurate on this one point.

Also, one substantive question on your Nov. 7 letter. On page 2 of the attachment that goes with that letter, it makes various references to indirect and secondary impacts on the mine on X or Y number of acres of Waters of the U.S.

Is there a difference, substantively or legally, between secondary and indirect impacts? Or are they talking about the same thing?

Thanks again and sincerely,

Tony Davis

Hello Tony,

Please see the attached memorandum from Mr. Huckelberry regarding Rosemont Mine.

Thank you,  
Debbie
